

# Applications of the blockchain to the trade clearing

A practical approach

**Gilbert Roylan Martinez Vargas**

supervised by Dr. Alexandra Simon Villar

Thesis presented for the bachelor's degree in Economics

Universitat Autònoma de Barcelona

January 20, 2022

# **Abstract**

This thesis aims to illustrate graphically, intuitively and theoretically all the different case uses of the blockchain technology applied to the trade clearing.

**Keywords:** Blockchain, trade clearing

# 1 Introduction

The blockchain technology is a decentralized, open and distributed system to record data. The current concept behind the blockchain was born in 2008 by the, still not known person-organization, Satoshi Nakamoto. Test test Let's cite! Einstein's journal paper [**einstein**] and Dirac's book [**dirac**] are physics-related items.
